Your device. Your pace.

3T is a research study that uses science to enhance your health—and you'll earn money.

If you're a 14 to 17 year-old African American guy, and interested in earning some extra cash, helping your peers, and supporting science, join us!

After taking a survey, you can download our app on your mobile device as long as it's connected to the internet. It's confidential, and goes at your pace. Then you'll take the survey 2 more times.
